

OmniLife

**Quick & Easy
Premium
Estimates.**

**Comprehensive
Research.**

OmniLife Fact Sheet

Premiums:

Quickly compare premium estimates from all major insurers on one single screen. No more navigating between different screens to get premiums, with OmniLife you can do all your premium modelling seamlessly on one screen.

Quote Validation & Transfer:

Instantly validate on-screen, and send quotes made in OmniLife directly into the insurer tool. This means you can easily validate premiums and commence the application process without having to re-key any data.

Integrated Needs Analysis Calculator:

OmniLife includes a comprehensive and flexible needs calculator that caters for a diverse array of unique client needs. Calculated amounts are automatically pre-populated for instant quotes.

Extensive Research Data

Compare product feature definitions side by side across multiple insurers on a single screen.

Our research covers:

- Product and feature ratings determined
- by an independent research methodology
- Differences and similarities between products
- Features commentary displaying strengths and weaknesses between different products

Comprehensive Product Coverage

Extensive product coverage consisting of 1077 current products for over 100 Australian Life Insurance Companies.

Legacy/Expired Product Research

Compare product definitions against current products with product definitions from an additional 287 expired products dating back to 2002.

Integrates with Your CRM

OmniLife can be connected bespoke to your CRM.
